Prototype...

by Coralie Amédéo & Emmanuelle Sarrouy
48mn, colour & b/w, 2001/06, France

To give life to a ghost, both joyful and melancholy ghost, who became to himself a ghost, prototypal form that cheerfully mingles with coarse-grained films and video pixels, with various shapes and colours, and that appears in the cuts, in the link shots, and in the flash of a shooting star.

The directors of the film

Coralie Amédéo and Emmanuelle Sarrouy, followed each one of the studies of cinema and met, like Cyril Maëro, on film shootings.

They have all three follow-up a professional course in the cinema and the audio-visual one. They became friends.

Today, Coralie is a director of casting and Emmanuelle is director of experimental films.
